

SnakeBite

This ain't your Momma's country music – You've been bit before, now prepare again to be SnakeBitten !!!

SnakeBite is a hard-hitting, rock 'n' rolling, country band that has been lighting up South-Western Ontario for quite a few years now, and they are ready to release upon you their second single release.

You were impressed with their first single "All Night Long"; now sit back, relax and get yourself ready to be blown away by their second release, "My Road".

My Road takes you on a journey down a long and winding road; a road that is not always a smooth drive, but one that will take you along some busted and broken pavement towards your destination. The modern country-rock sensibilities are there, but *My Road* will also harken you back to the classic steel, banjo and rich harmony sounds you recall humming along to during past travels along your own road of life.

Formed in 2005 in the hick-town of Bothwell Ontario, SnakeBite matured from a 2-piece campfire duo, to a full on 6-piece sonic assault! Gracing many a stage throughout SW Ontario as a working country-rock cover band, they have continually gained new followers, playing bigger and bigger venues. SnakeBite has enjoyed opening for some of country music's hardest hitters including Blake Shelton, Lonestar, Jason Blaine, Dean Brody to name but a few. Having always received warm praise for the live renditions of their original material over the years, SnakeBite decided that the time was right to professionally record and release their songs.
